

INTRODUCING THE PDI CONTRACT MANUFACTURING RANGE OF SUSTAINABLE SOLUTIONS

PDI CONTRACT MANUFACTURING

Our aim is to help you enhance your **green credentials** by providing you with innovative and sustainable solutions which can impact positively the environment.

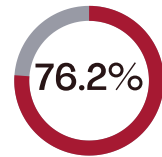

Switching from a traditional canister to our patented Eco Flexi Canister REDUCES...

Your annual plastic consumption by **191.8 tonnes**

Your plastic packaging by **33KG** per pallet shipped out

Your plastic consumption per product by **76.2%**

REUSE your Traditional Canister

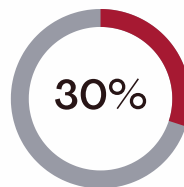

Our **Eco Refill** has been designed to reduce the number of traditional canisters used which helps to reduce your plastic waste.

Plastic Packaging RECYCLING initiatives

Our **Eco Flexi Canister & Eco Refill** are made with only one type of plastic material, supporting plastic reduction in landfill.

For every canister, at least **30%** will be made with post-consumer recycled plastic (PCR).
